The North Carolina Industrial Commission sponsors the Western Carolina Safety Council (WCSC). It is one of eight regional safety councils and includes Clay, Graham, Madison, Buncombe, Cherokee, Henderson, Transylvania, Haywood, Mitchell, Jackson, Yancey, Swain, and Macon counties.

- The objective of the WCSC is to promote safety in industry, the home and public places with special emphasis on industrial safety.
- It is operated as an independent, non-commercial, non-political organization.
- If you have an interest in participating in a particular program please call one of the board members.
- Membership in the council provides the opportunity to meet and exchange ideas with other members with the common goal of preventing accidents and injuries both on and off the job.
- Membership also includes discounts on the activities and access to a network of helpful, seasoned, EHS professionals.
- The council conducts safety workshops, which include relevant safety and health topics, motivational speakers and vendor participation.
- We are also working on other means of getting the message out to industry and the public and are open to your suggestions.
